SKILLS

Technical Languages: HTML, CSS, Javascript,

Frameworks and Databases: AngularJS, jQuery, Node.js, Express, MongoDB, git/github

Skills: Excellent written and analytical skills, highly organized, quick and eager learner.

Interpersonal Skills: Excellent teamwork, and oral communication skills, flexible and hardworking.

PROJECTS

Dot's-Shop

Node, Express, MongoDB, Angular

Used Ng-Card to create a full-stack shopping application that sells hand-made items for babies and toddlers. Connects to the Pay-Pal API in order to collect payments.

Break-up Bot

Node, Express, Angular

Created an API end-point with Node and Express that returns responses to user input.

Calorie Counter

Node, Express, MongoDB Angular

A group project, this application allows the user to track their food intake by day, month, and year. This application uses the USDA API to access nutrition information.

Final Project

Node, Express, MongoDB Angular

Created an application that allows users to track when they go out of their comfort-zone in order to level-up and calculates points based on their attempts.
